They will have to prove that they satisfy the course requirements with a self-certification of all

exams passed, relevant credit value (CFU), type of learning activity (TAF) and scientific disciplinary sector (SSD) using the form "Attachment 2" attached to this announcement.

The table in 'Attachment no.1' outlines different categories of students and relevant procedures to perform in order to enroll (direct ENROLMENT, pre-assessment of curricular requirements, and/or assessment test)

KNOWLEDGE OF ENGLISH

Candidates must have at least a **B1 Common European Framework (CEF)** level of English in order to enrol for a Master's degree course in the Faculty of Engineering. This level of knowledge may be proved by one of the following certificates to be delivered to the Administrative Office upon enrollment:

Institution	Certification type

Trinity College certifications have to state the level of English in all the fields in order to be valid (for example are not valid just Speaking & Listening or only Spoken English).

Candidates who do not have one of the certificates mentioned above will need to pass the Cisia Test (TOLC-I). Registration to the test is to be done online directly at CISIA <http://www.cisiaonline.it/> and it costs € 30,00 payable through credit card or bank transfer. You can find further information on CISIA webpage <http://www.cisiaonline.it/> or on the Faculty of Engineering webpage <http://webing.unipv.eu/home/>.

Applicants holding a Bachelor's degree from the Faculty of Engineering of the University of Pavia are not required to submit any certification, as their B1 knowledge of English had already been assessed during their previous academic career.

Candidates who can prove that they passed either a B1 level test to gain admission to a university course or an English exam worth at least 3 credits in their previous career are not required to take the Cisia test or show one of the previous certificates.

Candidates from foreign universities may certify their knowledge of English by presenting a certificate stating that they passed an English exam or exams of teachings conducted in English.

No certificates are required from students who are citizens of countries where English is one of the official languages and/or those who have been awarded a degree from an institution where teaching is conducted in English. However, these students must hand in documentation supporting their case upon enrolment.

4. CURRICULAR REQUIREMENTS AND EVALUATION PROCEDURE (see table in Attachment no. 1)

The following candidates have to apply for the evaluation of curricular requirements –

- graduates from foreign universities or those in possession of a foreign qualification;
- those who hold a five-year degree or those awarded an Italian three-year diploma (legislation previous to DM 509/99);
- graduates or senior students about to graduate whose degree curriculum includes courses not clearly identified by SSD classification and/or measured in CFU. (See attachments).

A specially appointed Committee will assess incoming student's curricula.

Access to Masters' degree courses is allowed also to graduates proving a high preparation and/or a strong motivation, even though their educational background does not strictly meet the requirements set herewith and listed in the attachment. However, the admission is subject to approval by a specially appointed Committee which will assess the candidate's prospect of previous academic career. Candidates falling into such category may be interviewed by the Committee to evaluate their motivation and suitability to the chosen Master's course.
