ART. 1 - TYPE

The University of Pavia will activate, for academic year 2020/2021, a **Masters degree in Energy and Environmental Management and Economics – MEDEA (Level I and II)** – at the Department of Economics and Management.

The course will be run in collaboration with the Eni Corporate University S.p.A.

Editions: 1 edition

From the 1991-92 to the 2019/2020 academic year, Masters in Energy and Environmental Management and Economics (MEDEA) courses, have been staged at Eni.

Reference field: *Economics.*

ART. 2 – COURSE OBJECTIVES, EMPLOYMENT OPPORTUNITES AND COURSE APPEAL

MEDEA Masters courses aim to provide in-depth knowledge on the problems facing companies that operate in the energy and environmental sector.

The Masters course dates back over sixty years and is attended by graduates from Economics and other technical degrees. Graduates of the course enjoy high employment levels, usually at Eni and its subsidiaries, both in Italy and abroad. Over the past ten years, Italian students have found employment within 3-4 months of graduating while non-Italian students are normally employed in their home countries.

The Masters course has widespread appeal, therefore graduates of both courses find employment across the energy sector, from administration, finance and control to strategy and international relations, contracts, trading, analysis and risk management.

For both levels, the careers resulting from the courses may vary in the type of tasks requested, but not in terms of access to the energy sector. This is due to the particular features of the teaching programme.

Students with a pure science background may also find employment in the fields of hydrocarbon research and exploration, oil and petrochemical production, engineering, product technology, refinement, the generation of electricity and environmental security and protection.

ART. 3 – COURSE PROGRAMME

The duration of the Masters course is one year (1500 hours in total – **60 credits**) and is organised into: frontal teaching, practical sessions, project work in collaboration with Eni and its subsidiaries, seminars, study groups and individual preparation.

Students must attend 75% of the course activities.

The study period may not be suspended.

Transfers to similar Masters courses offered by other institutions are not permitted.

Level I course modules are organised as follows and will be taught in English:

Courses/ Module	SSD	Frontal teaching hours	Individual study hours	Total hours	Credits
INTEGRATED COURSE: 1 ECONOMICS					
1.1 ECONOMICS BASIC COURSE 1.2 BEHAVIOURAL ECONOMICS 1.3 HISTORY AND ECONOMICS 1.4 INDUSTRY 4.0 AND LOGISTICS	SECS-P/01	88	187	275	11
INTEGRATED COURSE: 2 ECONOMETRICS					
2.1 QUANTITATIVE METHODS FOR MANAGEMENT 2.2 DATA ANALYSIS 2.3 CODING	SECS-P/05 SECS-P/02	88	187	275	11
INTEGRATED COURSE: 3 FINANCE					
3.1 FINANCIAL ACCOUNTING 3.2 CORPORATE FINANCE 3.3 OIL AND GAS CONTRACTS AND TRADING 3.4 PROJECT MANAGEMENT 3.5 STRATEGIC MANAGEMENT	SECS-S/06	88	187	275	11
INTEGRATED COURSE: 4 ENERGY					
4.1 ENERGY ECONOMICS 4.2 HYDROCARBONS' CYCLE 4.3 GEOPOLITICS OF ENERGY 4.4 FIELD DEVELOPMENT STRATEGY 4.5 POWER SECTOR ECONOMICS	SECS-P/06	88	187	275	11
INTEGRATED COURSE: 5 ENVIRONMENT					
5.1 ENVIRONMENTAL ECONOMICS AND POLICY 5.2 SAFETY AND ENVIRONMENTAL PROTECTION 5.3 CORPORATE SOCIAL RESPONSIBILITY 5.4. CIRCULAR ECONOMY	SECS-P/06	88	187	275	11
Total hours partial		440	935	1375	55
Project work - placement				100	4
End of course examination				25	1
Total hours				1500	60

Level II course modules are organised as follows and will be taught in English:

Courses/ Modules	SSD	Frontal teaching hours	Individual study hours	Total hours	Credits
INTEGRATED COURSE: 1 ECONOMICS					
1.1 ECONOMICS ADVANCED COURSE 1.2 BEHAVIOURAL ECONOMICS 1.3 HISTORY AND ECONOMICS	SECS-P/01	88	187	275	11
INTEGRATED COURSE: 2 ECONOMETRICS					
2.1 APPLIED ECONOMETRICS 2.2 SYSTEM DYNAMICS MODELLING 2.3 CODING	SECS-P/05 SECS-P/02	88	187	275	11
INTEGRATED COURSE: 3 FINANCE					
3.1 FINANCIAL ACCOUNTING 3.2 CORPORATE FINANCE 3.3 OIL AND GAS CONTRACTS AND TRADING 3.4 PLANNING AND CONTROL 3.5 PROJECT MANAGEMENT 3.6 STRATEGIC MANAGEMENT	SECS-S/06	88	187	275	11
INTEGRATED COURSE: 4 ENERGY					
4.1 ENERGY ECONOMICS 4.2 HYDROCARBONS' CYCLE 4.3 GEOPOLITICS OF ENERGY 4.4 FIELD DEVELOPMENT STRATEGY 4.5 POWER SECTOR ECONOMICS	SECS-P/06	88	187	275	11
INTEGRATED COURSE: 5 ENVIRONMENT					
5.1 ENVIRONMENTAL ECONOMICS AND POLICY 5. CORPORATE SOCIAL RESPONSIBILITY 5.3 CIRCULAR ECONOMY 5.4 ENVIRONMENTAL ASSESSMENT	SECS-P/06	88	187	275	11
Total hours partial		440	935	1375	55
Project work - placement				100	4
End of course examination				25	1
Total hours				1500	60

Masters will start on 16/09/2020 and end on 30/06/2021. The study programme could be changed in case organisational issues should arise.

ART. 4 – EVALUATION TEST

Students' knowledge is evaluated through tests.

Marks are expressed as a percentage with a pass mark of 60/100.

Some seminar-based courses do not feature tests but a purely qualifying examination.

ART. 5 – END OF COURSE EXAMINATION AND AWARD OF THE QUALIFICATION

Once the course has concluded, students who have completed all of the activities and satisfied the set requirements will be awarded a Level I or Level II Masters degree in **“Energy and Environmental Management and Economics”**.

The end of course examination consists in the preparation of a report on the project work (1 CFU), without any oral presentation.

ART. 6 – TEACHING STAFF

The Masters courses and modules will be held by teaching staff from the University of Pavia, experts from Eni and its subsidiaries and other highly-qualified experts.

ART. 7 – ENTRY REQUIREMENTS

The Level I course is aimed at candidates who hold:

1. **a three-year degree or equivalent qualification awarded abroad in ECONOMICS, ENGINEERING, MATHEMATICS, PHYSICS, CHEMISTRY, GEOLOGY AND STATISTICS.**

Further **candidate** entrance requirements:

- to be under 32 years of age on 31/12/2020;
- excellent command of English

The Level II course is aimed at candidates who hold:

2. **a Masters degree, pursuant to Ministerial Decree 270/2004, in one of the following classes or an equivalent qualification awarded abroad:**

- Astronautical and aerospace engineering LM20
- Biomedical engineering LM21
- Chemical engineering LM22
- Safety engineering LM26
- Civil engineering LM23
- Construction systems engineering LM24
- Automation engineering LM25
- Telecommunications engineering LM27
- Electrical engineering LM28
- Electronic engineering LM29
- Energy and nuclear engineering LM30
- Management engineering LM31
- Mechanical engineering LM33
- Information Technology engineering LM32
- Naval engineering LM34
- Environmental and territorial engineering LM35
- Architecture and Construction-Architectural engineering LM4
- Finance LM16
- Economics LM56
- Economics for the environment and culture LM76
- Economics and Business Management LM77
- Materials Science and Engineering LM53

Entry requirements for **Level II** courses:

- possession of a Masters degree with a final mark not below 105/110 (95/100) in the classes cited in section 2 or an equivalent qualification awarded abroad;
- be aged less than 28 on 31/12/2020;
- excellent command of English (to be evaluated)

Italian students awarded requested qualifications by 31 July 2020 are also admitted. Such candidates should include on their curriculum vitae the average mark of any examinations taken.

The maximum number of students enrolled per course: **50**.

The minimum number of students required to activate the course: **10** (MEDEA Level II); **10** (MEDEA Level I)

The Academic Board reserves the right to consider whether to extend the number of course places offered.

There is a two-stage selection process:

PHASE 1: PRE-SELECTION BY THE UNIVERSITY OF PAVIA

The Servizio Post Laurea, once it has received the applications, will evaluate the eligibility of each candidate, taking into consideration the above-mentioned entry requirements. Should the number of candidates exceed the maximum number of places available for the Level I and II courses, it will send a list of those candidates deemed eligible to the Masters Co-ordinator and to the Eni Corporate University.

PHASE 2: SELECTION BY THE CO-ORDINATOR AND ENI

Once it has received the list of students from the first phase of pre-selection, the Masters commission, composed of a Co-ordinator and Eni personnel, will allocate places on the Masters courses to candidates.

The Commission will identify and make a final decision on the candidates admitted to the second phase of selection. These candidates may be required to undergo aptitude and behavioural tests and technical/motivational interviews in order to verify that they satisfy Eni's recruitment criteria.

When the selection process has concluded, a ranking list for each level (I and II) and divided by qualifying type will be drawn up. Should two or more candidates have the same score, preference will be given to the younger candidate.

Should one or more candidates withdraw, the place/s vacated will be made available to candidates who appear on the relative ranking list until all places have been filled.

Regarding ranking list positions, preference will be given to candidates from one of the countries benefiting from a scholarship (in particular, Italian citizenship for the Level II course and non-Italian citizenship for the Level I course).

ART. 8 - DEADLINE FOR ONLINE COURSE ENROLMENT

Candidates must complete the admission procedure described in the Call for Applications from **13 February 2020** and by:

- 4 May 2020 for the Level I Masters course
- 18 May 2020 for the Level II Masters course

The requirements requested in the Call for Applications and Attachment must be held by the enrolment deadline date with the exception of that described in Article 7 regarding access to the Level II course (Italian candidates who are awarded a qualification by 31 July 2020 will also be admitted).

Once a completed application has been made on the Unipv portal, candidates must complete an application on the Eni.com website (either of the following links):

<https://www.eni.com/it-IT/cariere/master-medea.html> - Italian version

<https://www.eni.com/en-IT/careers/medea-masters.html> - English version

ART. 9 – ATTACHMENTS TO THE ONLINE MASTERS APPLICATION

Candidates must attach their **curriculum vitae** during the online application process, including an indication that they hold the requested entry and selection requirements.

Candidates holding a qualification awarded abroad must attach, during the online application process, the documents indicated in Article 3 of the Call for Applications. To complete their enrolment, the requested documentation must be presented, in its original form, together with a declaration of legal validity from the Italian diplomatic representative situated in the state where the certificate was issued, **by 30/09/2020**, to the Ufficio Master - Servizio Post Laurea – via Ferrata 5, 27100 Pavia.

ART. 10 – SCHOLARSHIPS

Scholarship candidates are admitted to the Master courses and exempted from the payment of the €25,000 course fee. Further, in order to favour the diffusion of the culture of energy in countries of specific interest for the energy sector, all selected candidates who are citizens of one of the following countries will be awarded a scholarship: Algeria, Angola, Cyprus, Congo, Egypt, United Arab Emirates, Ghana, Indonesia, Italia, Kazakhstan, Libya, Mexico, Mozambique, Oman, Turkmenistan, Vietnam. As well as an exemption from the course fee, the scholarship includes free teaching materials, a contribution to accommodation costs and access to the company canteen. The scholarship amounts to €1,000 before tax for Italian candidates and €1,300 before tax for candidates from abroad.

ART. 11 – WEBSITE AND ADMINISTRATION OFFICE

All correspondence to candidates will be made via the following website:
