

Return to University Colleges from 4 May

1. Starting from 4 May 2020, it has been programmed the gradual return to the Colleges of their Members (students, researchers, and fellows) who have been absent till that date, according to the indications and operating methods specified below.
2. In the first phase, starting from 4 May 2020, subject to compliance with the provisions limiting circulation on the territory laid down by national and / or regional regulations, in accordance with the provisions adopted by the University of Pavia to allow the start of a first use of university services, entry to the Colleges will be authorized on condition that the Members:
 - i) email an explicit request for return to the College;
 - ii) provides the documentation referred to in the following art. 4;
 - iii) belongs to one of the following categories:
 - a) researchers, research fellows, PhD students, fellows of the University of Pavia who have authorization to access the University's laboratories, according to the methods and conditions established by the Document stated by the University on the 28 April 2020, i.e. *Ripresa dell'accesso alle strutture di Ateneo (Laboratori e Biblioteche) per attività di ricerca: indicazioni operative e linee guida di comportamento* (Access resumption to the University structures (Laboratories and Libraries) for research activities: operational indications and behavior guidelines);
 - b) undergraduates who are writing the final thesis and for whom the progress of the thesis work is certified by the responsible supervisor; they need access to the Library to use the services in a "contactless" mode - Phase 2.1: "Distant (still), but (closer)" - available at following link:
http://news.unipv.it/wp-content/uploads/2020/03/2020.04.30-Phase-2.1_contactless-services-Libraries_Pavia_Cremona_from-4-May-2020-_def.pdf
 - c) Members who intend to temporarily return to the College just to recover their personal belongings and then return to their home/residence.
3. It is in any case forbidden to return to the Colleges to those who have (or live with people having) one of the two conditions (body temperature ≥ 37.5 ° C, contacts with COVID19 positive people) or a combination of at least three of the symptoms listed in the attached declaration (point 1).

4. In view of the return to the College, Members must send to the College:

- i) the Declaration relating to one's health situation according to the template annexed;
- ii) the declaration of the Laboratory Manager or of the Professor responsible for the thesis work attesting to the requirement of art. 2.a or the requirement in art. 2.b.

Upon entering the College, Members must sign the Declaration relating to their health situation confirming the current truthfulness of the content. Members will take care of updating this Declaration in the following days, in the same way, if there are new elements with respect to what was previously declared.

5. In order to allow the scheduling of the returns, in all cases, also for the simple recovery of personal belongings, the return will take place with times and methods previously agreed with the Rector of the College.

6. All Members, both just returned or already present, must comply with all containment and protection measures prescribed by current provisions. It is recalled that the first protection measure, on which all the others depend, is the SENSE OF RESPONSIBILITY of each one. Never as in this case, protection is effective only if implemented by the entire collegiate community. In particular:

- 1) obligation to use the mask;**
- 2) prohibition of assemblies within each structure;**
- 3) prohibition of entry into the College of extraneous persons, even if they are friends or relatives.**

We also remind, as examples, the following essential health precautions:

- a. Avoid any interpersonal physical contact (e.g handshake).
- b. Always respect the minimum interpersonal distance prescribed by current regulations.
- c. Take care of constant personal hygiene with frequent hand washing or with the use of disinfectant gels.
- d. Avoid touching your mouth, eyes and nose with your hands.
- e. Avoid the exchange of telephones, keyboards, or other work and / or study and / or instrumental devices; in any case ensure their regular sanitation.

7. The provisions of this document will be updated following new decisions of the competent Authorities and in any case with reference to the evolution of the health situation.
